

Les nouvelles du PDQ33

MAY 14th | Our team with few students from the CLAM french classes

[POLICE PROXIMITY]

CLAM CAME FOR A COFFEE WITH OUR TEAM

On the occasion of the Coffee with a cop on May 14th at Parc metro station, the Neighbourhood police station (PDQ) 33 team had the chance to meet hundred of citizens who live, studie or work in Parc-Extension. For example, students from french classes of Carrefour de Liaison et d'Aide Multiethnique (CLAM) came to meet us. It was a awsome opportunity for the officers to answer their questions in a informal space. Thanks to CLAM team, a partner who makes a diffence with new arrivals.

TRADE IN YOUR TICKET

With the arrival of spring, the Trade in your ticket project has appeared in Parc-Extension. According to the project, **and on a specific operation**, when a pedestrian or cyclist does not obey the Highway Safety Code during a targeted operation, they have 7 days after receiving the ticket to make an appointment with the phone number on the back of the leaflet delivered by the police officer. The offender will then have to attend an information and prevention session on pedestrian or bicycle safety, as the case may be, to have their ticket cancelled. Trade in your ticket aims to improve the road safety record by targeting vulnerable clients who are frequently involved in collisions.

For more information about the project, consult the «Project» section at www.spvm.qc.ca

WORLD ELDER ABUSE AWARENESS DAY

On June 14th, the Neighbourhood Police Station 33 and its partners from the Parc-Extension elder roundtable celebrated World elder abuse awarenessse day at the Place de la Gare. It was an opportunity to raise citizens awareness about different forms of abuse: physical, psychological, but also by financial and material exploitation.

TIPS! TO PREVENT JEWELLERY THEFT

- Travel in a group whenever possible
- Hide your valuable jewellery until you reach your destination
- Refuse a gift from a stranger and do not let that person come close to you

The thief (s) uses false pretences to get close to you (eg: asks for the way to the hospital or asks for the time). Then he offers you a piece of jewellery of no value, comes in closer to get you to try on the jewellery. At the same time, the thief steals your valuable jewellery without your knowledge. The theft is not noticed until later.

THE MODUS OPERANDI

[ROAD SHARING]

B.R.A.V.E.S OPERATION

In the evening of May 16th, the SPVM has been conducting a B.R.A.V.E.S. operation (roadblocks, drunk driving and drug evaluation) in Parc-Extension. While consuming alcohol and cannabis is legal, it is important to remember that getting behind the wheel with impaired driving abilities contravenes the Criminal Code. The consequences of this behaviour are devastating.

[SAFE PUBLIC SPACES]

THE CAVALRY IS IN THE NEIGHBORHOOD

You probably saw them in the last few weeks! The PDQ 33 has counted on the cavalry to patrol the streets of the neighborhood maintaining police presence in our public spaces and parks to increase our citizens sense of security.

[POLICE PROXIMITY]

ALL SUMMER... ON FOOT AND ON BICYCLE

As pointed out by several parteners through our local security diagnaosis, the relevance of policeman on foot and on bicycle on our streets is undeniable for the PDQ 33. This is why, this summer, citizens of the sector can rely on two agents and two police cadets on foot patrol in addition to our two policeman on bicycle. Finally, for several years, we also collaborate with the Sun Youth bike patrol who provide a presence in public spaces to promote safety and prevent infractions.
