TEENS VISIT US AT THE POLICE STATION

On November 27, team 1 at PDQ 33 welcomed 14 young people from the neighborhood during an open house activity. It was the perfect opportunity for agents to answer many questions about their background and the different facets of the profession. The visit also helped to explain the operation of the neighborhood police station and the daily life of the police officers.

The success of this activity was based both on the participation of young people and the involvement and dedication of Sergeant Dany Dean and his team, police officers Marc-André Hébert, Milena Maturana, Sébastien Molaire and Martin Bourgeois, with the collaboration of socio-community officer Nancy Sirois. Special thanks to Yasin Poran and Marco Gauthier, youth workers at the Centre Jeunesse Unie, who helped organize this meeting. For 30 years now, the organization has been dedicated to supporting young people aged 12 to 17 to promote their personal and social development.

FRAUD | SPOOFING OF GOVERNMENT TELEPHONE NUMBERS

The SPVM wishes to inform the public that scammers are using telephone numbers from government departments, including those of the SPVM, to extort money from citizens. To trick people, they would use an application that allows them to display the phone number of their choice during a call.

Here are some prevention tips to follow when you receive such calls.

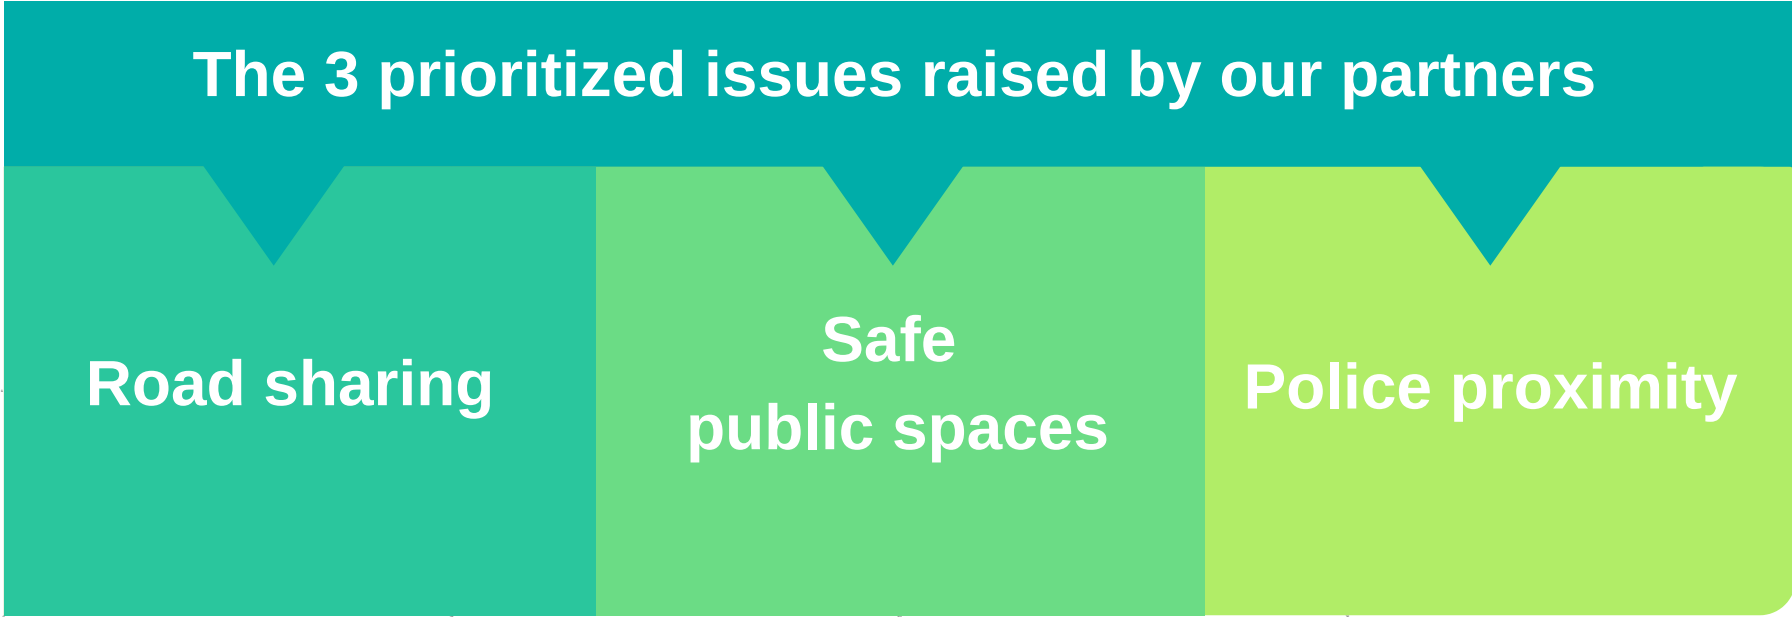

- **Never disclose your personal information during a call.**
- **No police or government department ever requests the transfer of funds by cryptocurrency or the purchase of cards.**

Anyone who may have been a victim of fraud is asked to go to their neighbourhood police station or to call 911 to file an official complaint.

53ND BAKED BEANS DAY | 331 MEALS SOLD!

As part of the annual campaign of the Fraternité des policiers et policières de Montréal, which took place in the fall, officers from the PDQ 33 sold 331 baked bean meals, raising \$ 1,160. This sum will be redistributed in the neighborhood through community organizations working with families living in socioeconomic precariousness. The PDQ 33 team would like to thank its loyal partners who have supported us for several years thanks to their great generosity.
