* The 47.9% rise in the number of sexual assaults in 2010 was largely due to the implementation of a new statistical codification for misdemeanours included in the "other sexual offences" category that could not be accounted for in the year 2009. In 2010, the 436 "other sexual offences" recorded were added to the sexual assaults recorded and they alone increased this category of crime by 40.4%. As for actual sexual assaults, the real increase was 7.5% (1,161 crimes in 2010 compared to 1,080 in 2009).

** The 2010 statistics regarding the changes in adult crime and juvenile delinquency are not available.
